

Transitional Year

RESIDENCY PROGRAM AT
**St. Petersburg
General Hospital**

Welcome to the Transitional Year Residency Program at St. Petersburg General Hospital

The Transitional Year Residency Program at St. Petersburg General Hospital is part of the HCA Healthcare Graduate Medical Education network.

HCA Healthcare is the nation's leading provider of quality, patient-centered care. We are also the leader in graduate medical education, all brought together by a single mission:

Above all else, we are committed to the care and improvement of human life.

ACGME ID: 9991100243

Salary

PGY1
\$54,267

We are happy that you are considering our program as a potential site to continue your medical training. Currently, we offer the following ACGME-approved postgraduate programs: Transitional Year and Family Practice Residency PGY-1, PGY-2 & PGY-3.

Our Program exists for two reasons: to provide superior education and training for our interns and residents, and to give our patients the best possible medical care. We prepare our interns and residents to succeed in the practice locations they will eventually choose, and to be ready for leadership roles in their communities. We are proud of our achievements, the quality of care, and the many important services and educational programs we provide to the people of our community.

We believe the key to our success is the commitment of our faculty and staff to excellence in education and patient care. Our faculty members devote substantial time to enhancing their own teaching skills and are dedicated to helping our interns and residents grow professionally and personally into fine physicians. They are eager to share their knowledge and experience with you. We strongly believe in promoting the well-being of our trainees. Psychological, emotional and physical well-being are critical in the development of the competent, caring and resilient physician. Self-care is an important component of professionalism; it is also a skill that must be learned and nurtured in the context of other aspects of the learning environment.

A huge benefit to our program is our hometown. St. Petersburg is an exciting city that has lots to offer. It is a peninsula city bordered by the Gulf of Mexico to the west and Tampa Bay to the east. We offer 35 miles of beautiful beaches that provide spectacular sunsets. We are within minutes of many popular Florida attractions; just 30 minutes to Busch Gardens in Tampa and 90 minutes to Walt Disney World Resort, Sea World and Universal Studios in Orlando. In addition, we are home to world-renowned museums and art galleries. The area is also home to several professional sports teams, including the Tampa Bay Rays, Tampa Bay Buccaneers and Tampa Bay Lightning.

Our program also puts an emphasis on didactic learning. CME lectures are also offered on-site on a regular basis. In addition, our interns and residents participate in various hospital-based committees such as the Cancer Committee Tumor Board. You are about to make a decision that will influence the rest of your life. We hope the program information that you will find on our site will help you discover the atmosphere of teamwork and professionalism we strive to create. We welcome you to get to know us better, and invite you to consider training at St. Petersburg General Hospital. Please feel free to contact the GME office at (727) 341-4819 should you have any questions.

Sincerely,

My Myers, MD

About the Program

Program Basics

- The program was initially accredited by the Accreditation Council for Graduate Medical Education in 2018 and our sponsoring program is the Family Medicine Residency Program.
- Our Sponsoring Institution is HCA West Florida GME Consortium and is affiliated with the University of South Florida (USF).
- Our Transitional Year Residency Program is structured to give residents broad exposure to the basic areas of medicine to provide fundamental skills training in both the inpatient and outpatient setting.
- Residents rotate through inpatient internal medicine, ambulatory medicine, emergency medicine, and critical care as well as other elective medicine and surgical specialties.

Educational Opportunities

- Morning Report - Hospital Medicine Team - Mon-Thurs
- Varying noon Conferences - Monday - Friday
- Journal Club - Monthly
- Morbidity and Mortality Conference – Monthly
- Tumor Board – Monthly
- Resident Advisory Committee - Fridays
- Board Review
- Business Side of Medicine

- Financial Workshops
- Electronic Libraries via HCA and USF Morsani College of Medicine
- Evidence Based Medicine and Value Based Operations
- Simulation lab

Program Highlights

- Patient diversity
- Curriculum Committee
- Scholarly Activities & Committee
- Wellness Activities & Committee
- And last, but not least, LOCATION!!

Residency Life

The residents, by far, are the best part of our residency program! The environment is supportive and collegial. We enjoy celebrations and activities inside the hospital as well as outside!

St. Petersburg General Hospital

- The Orthopedic Center for Joint Replacement and Spine Surgery

About HCA Healthcare GME

HCA Healthcare is a comprehensive healthcare network with over 275,000 colleagues across more than 2,000 care facilities all committed to creating a positive impact every day. We continually invest in our colleagues and facilities to better serve our patients and local communities. The Graduate Medical Education (GME) programs seek to inspire tomorrow's physicians to care for and improve human life by focusing on patient-centered approaches to practicing the latest evidence-based medicine.

Scholarly Activity

HCA Healthcare Graduate Medical Education provides a critical link between vigorous scholarly activity and real-world patient care from a sophisticated data repository of more than 32 million patient encounters each year.

2,500+ HCA Healthcare GME scholarly activities in 2020-21.

Clinical Training

Each year approximately five percent of all U.S. hospital services happen at an HCA Healthcare facility, including:

32+ million patient encounters
7.4 million emergency room visits
215,000+ babies delivered

HCA Healthcare Graduate Medical Education is a leader in clinical experience.

- Nationally known physician expertise across the country
- Investments in facilities allowing the advancement of patient care
- High emphasis on simulation results and low patient incidents
- Higher patient touch than academic facilities
- Annual collaborative mass casualty event team training

A commitment to scholarly activity

Based on more than 32 million patient encounters each year, our scholarly activity bridges the gap between compelling evidence and exceptional patient care.

Our experiential learning is rooted in evidence-based medicine that leads to innovative, **real-world patient health solutions**.

Merging the rigor of **ACGME** accreditation with high patient touch, our residents and fellows deliver evidence-based care that demonstrates our mission to care for and improve human life.

We offer **National Grand Rounds** that leverage accomplished clinical expertise from across HCA Healthcare, bringing the nation's leading medical experts to our residency and fellowship programs.

Influential Collaboration

HCA Healthcare residents and fellows have access to talented, highly skilled teams of faculty, industry experts and dedicated researchers to guide them through their journey. Residents and fellows produce evidence that drives future practice by leveraging HCA Healthcare's national clinical data warehouse – the heart of our data ecosystem.

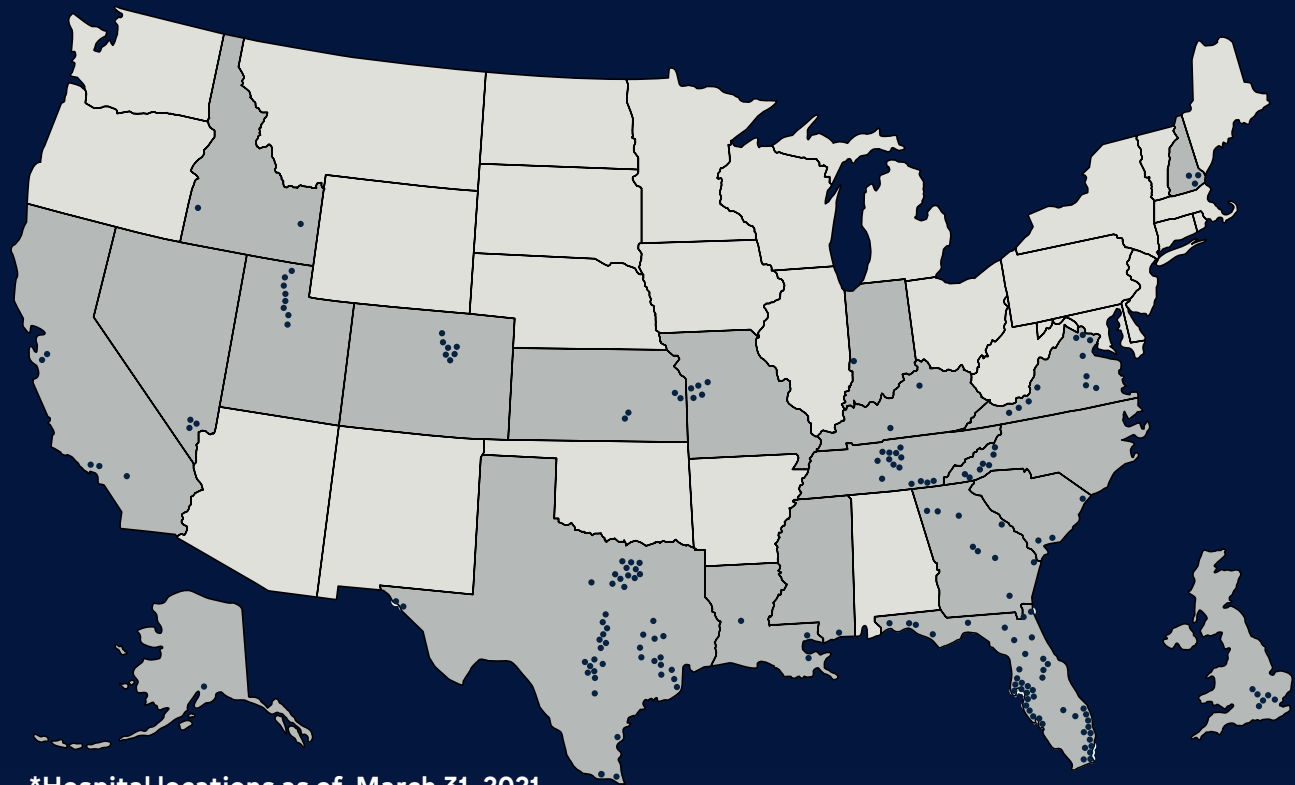

HCA Healthcare Scholarly Commons is a platform to collect, share and publish the variety of academic work created by the Graduate Medical Education community. During 2020, readership of those works eclipsed the 25,000 mark. Included on this platform is the **HCA Healthcare Journal of Medicine**, a peer reviewed scientific periodical focused on innovation, enhanced quality and developing new knowledge in clinical care and medical education for the benefit of all patients. In its first year of publication, the journal disseminated 86 articles in six issues as well as a seventh special issue on the COVID-19 pandemic.

About HCA Healthcare

HCA Healthcare is one of the nation's leading providers of healthcare services and is comprised of 186 hospitals and more than 2,000 sites of care including surgery centers, freestanding ERs, urgent care centers, diagnostic and imaging centers, walk-in clinics and physician clinics in 20 states and the United Kingdom. With its founding in 1968, Nashville-based HCA Healthcare created a new model for hospital care in the United States.
